

GLAZER MODULAR SUITES

FLAMERITE FIRES
GLAZER MODULAR SUITES

ONE FIRE NUMEROUS OPTIONS

Our stylish Glazer fire will make a statement in any room. Available to purchase on its own or match it with one of our three suites.

Choose the Exo or Iona to mount on a wall, or the Strato to stand on the floor. All three suites fit flat to the wall and are easy to install. For something a little more bespoke you can mix and match any of the bases or tops as well as order a chimney breast to a bespoke height (standard 5ft/1525mm)

The fire can be controlled both manually and via Bluetooth. Flamerite Fire's award-winning Smart eControl app allows use of the advanced features, which include a thermostatically controlled 1.5kw heater, two dimmers, flicker control and a seven day timer.

The low energy LED flame effect can be enjoyed with or without heat.
